- Image Sequence Facial Expression Recognition Based on Deep Residual Network Image Sequence Facial Expression Recognition Based on Deep Residual Network

- Deep Echocardiography: A First Step toward Automatic Cardiac Disease Diagnosis Using Machine Learning Deep Echocardiography: A First Step toward Automatic Cardiac Disease Diagnosis Using Machine Learning

- An Expected Value Prediction of Game Theory for Pre-copy over Cloud Computing An Expected Value Prediction of Game Theory for Pre-copy over Cloud Computing

- Research on Relay Selection Algorithm for Joint D2D Mode Selection and Resource Allocation Research on Relay Selection Algorithm for Joint D2D Mode Selection and Resource Allocation

- Tug-of-war between Self-determination and Addiction: A Case of Mobile Games Tug-of-war between Self-determination and Addiction: A Case of Mobile Games

- Strategic Decision-making Processes of NPD by Hybrid Classification Model Techniques Strategic Decision-making Processes of NPD by Hybrid Classification Model Techniques

- Constant Ciphertext Size Multi-Authority Attribute-based Scheme Without Key Escrow Constant Ciphertext Size Multi-Authority Attribute-based Scheme Without Key Escrow

- Multi-client Authenticated Intersection Protocol from a Negative Database Server Multi-client Authenticated Intersection Protocol from a Negative Database Server

- Load Balancing Using P4 in Software-Defined Networks Load Balancing Using P4 in Software-Defined Networks

- Blockchain Based Data Storage Mechanism in Cyber Physical System Blockchain Based Data Storage Mechanism in Cyber Physical System

- Clustering of Domestic Locations in Layers for the Purpose of Breakout Prevention of Diseases Clustering of Domestic Locations in Layers for the Purpose of Breakout Prevention

of Diseases

- <u>An Improved Cellular Automata-Based Classifier with Soft Decision</u> An Improved Cellular Automata-Based Classifier with Soft Decision

- <u>Appearance Based Gaze Estimation Using Eye Region Landmarks and Math Approach</u> Appearance Based Gaze Estimation Using Eye Region Landmarks and Math Approach

- <u>Online Handwritten Verification Algorithms Based on DTW and SVM</u> Online Handwritten Verification Algorithms Based on DTW and SVM

- <u>Structure Fault-tolerance of the Augmented Cube</u> Structure Fault-tolerance of the Augmented Cube

- <u>Orbital Angular Momentum Mode Intelligent Identification in the Secondary Frequency Domain with Compressive Sensing</u> Orbital Angular Momentum Mode Intelligent Identification in the Secondary Frequency Domain with Compressive Sensing

- <u>A Content-Aware POI Recommendation Method in Location-Based Social Networks Based on Deep CNN and Multi-Objective Immune Optimization</u> A Content-Aware POI Recommendation Method in Location-Based Social Networks Based on Deep CNN and Multi-Objective Immune Optimization

- <u>Traffic Sign Detection and Recognition for Intelligent Transportation Systems: A Survey</u> Traffic Sign Detection and Recognition for Intelligent Transportation Systems: A Survey

- <u>Reinforcement Learning Based Computation-aware Mobility Management in Ultra Dense Networks</u> Reinforcement Learning Based Computation-aware Mobility Management in Ultra Dense Networks

- <u>Joint Trajectory and Resource Allocation Design for Throughput Optimization in UANET</u> Joint Trajectory and Resource Allocation Design for Throughput Optimization in UANET

- <u>Using Internet of Things to Improve the Sterilization Process for Surgical Instruments in Healthcare</u> Using Internet of Things to Improve the Sterilization Process for Surgical

Instruments in Healthcare

- [Consumer Behavioral Intension for Using Mobile Payment for E-commerce in Taiwan](#) Consumer Behavioral Intension for Using Mobile Payment for E-commerce in Taiwan

- [The EU Judicial Legal Assistance through Electronic Delivery Document with Certain Research of Blockchain](#) The EU Judicial Legal Assistance through Electronic Delivery Document with Certain Research of Blockchain

- [Deep Motivation or Surface Strategy: Effects of Authentic Technologies on Scientific Learning Outcomes and Study Approaches](#) Deep Motivation or Surface Strategy: Effects of Authentic Technologies on Scientific Learning Outcomes and Study Approaches

- [An Explorative Study on Constructing Indices for Web Television Viewing](#) An Explorative Study on Constructing Indices for Web Television Viewing
